

I am absolutely livid about the steps backward we are experiencing in the FCC. Michael Powell and the oligarchy which exists DO NOT own the bandwidth/spectrum/airways WE THE PEOPLE DO!!! NOT Michael Powell or any of these huge media conglomerates pushing their own marketing agendas to the sheeple. I don't think this is Nazi Germany, but it's coming damn close! We want real choices! I don't want to fiddle while Rome burns and our media is flooding us with fluff and narrow views. Where is the public service aspect? For example elections are treated as horse races with none or very slanted information on real issues. Information is sterilized and twisted to what they think "we want" to hear! Not what "we need" to hear and know! Damn it!!! Free it up, bust it up and get the Corporate interest out of cramming their product/views down our throats. You wouldn't give the keys to "our forests" to the Lumber companies and expect them to be responsible. Why does the FCC our government give "our airways" FREE to these narrow minded special interests to make billions of dollars to destroy Freedom and Liberty has never been so challenged! We demand diversity and opposing views!!
